PROFILE

As a React Developer with two years of experience, I possess a strong foundation in building dynamic and efficient web applications using React.js. With a passion for creating intuitive user interfaces and optimizing user experiences, I excel at collaborating with cross-functional teams to deliver high-quality solutions.With a keen eye for detail and a passion for innovation, I am ready to leverage my skills and experience to drive impactful results for your organization.

WORK EXPERIENCE

Sr Software Engineer

Viral Pitch   May 2023 - Present

- Developed a responsive Influencer Marketing platform for 500+ users using **React Js** and **Tailwind**, enabling brands to connect with influencers.
- Created 7+ pages and 200+ components providing easier composition across the application.
- Employed a **component-based** architecture, promoting modular development, code reusability, and efficient rendering.
- Implemented RESTful API integration to fetch and update data, reducing network calls and improving overall efficiency by **30%**.
- Collaborated closely with the backend team to define API requirements and ensure seamless integration.
- Implemented performance optimization techniques, including code splitting, lazy loading, and bundling using **Webpack**.

Software Engineer

Xoriant Solutions   Aug 2021 - 2023

- Built a responsive user interface using semantic **HTML5**, **ReactJS**, and **Tailwind** CSS.
- ·Integrated PowerPoint slide library feature to merge and download presentations created by another sales/presales team.
- ·Used understanding of React fundamentals to promote better component lifecycle practices, increasing speed by **20%**, with maintaining 100%deadline adherence.
- Implemented **performance optimization** techniques, including code splitting, lazy loading, and bundling using Webpack.
